What is categorical scanning?

Definition:

What is scanning?

Quick reading a specific word/phrase/synonym

<p>1. Direct scanning</p> <p>Scan for the same word we have in mind</p> <p>ASAP</p>	<ul style="list-style-type: none"> • remove patient from danger (without endangering yourself) • put out burning clothing e.g. rolling patient on the ground covered with a blanket • if clothing still smouldering put out with large amounts for cool water • perform primary and secondary surveys • remove clothing, rings, watches, jewellery and belts • immediately cool burnt area for 20 minutes under cool running water • keep non-infected areas warm and dry • give o2 to maintain saturation > 93% adult or > 95% child • if cervical spine cleared, raise head of bed to reduce swelling • give analgesia • use cling wrap for initial dressing as it keeps the burn moist and allows easier assessment • limbs can be wrapped loosely with a non-adherent dressing and a loose bandage • keep affected limbs elevated to minimise swelling and maintain perfusion • consult medical officer ASAP as patient may require intubation and fluid resuscitation • insert 2 x largest possible bore IV cannulas through unburnt skin if possible but if necessary through a burnt area.
<p>2. Synonym scanning</p> <p>We are looking for a words with similar meaning</p>	
<p>3. Categorical scanning</p> <p>How many...?</p>	

Answering Questions Quickly

12 What type of dressing is used once the wound has become pink with no eschar?

Keyword (pink/eschar)

Find **category** (dressing)

Gives me the answer when I find an example of that

14 How long should running water be used to cool a serious burn?

TIME NUMBER

Key word

13

What may result if an antidote to Morphine and/or other opioids is given?

Side effect / outcome / benefit
