Exercise 2

Can you fix the sentences below by choosing words from other sentences?

- John has developed some strange symptoms on the way home from Brazil, so they have put him in **quarantine**.
- Some people are more **susceptible** to allergies than others.
- It is **imperative** that Mrs Smith is kept in for monitoring after such a severe concussion.
- It's clear that you have severe **crusting** around your eye, which indicates infection.
- Don't worry about your arm being wet, the antibacterial moisture from the wipes will **evaporate**.
- Mr Carter is in **remission** at the moment. We are hopeful the cancer will not return.
- You were born with congenital heart **defects** Mrs Davis, so we will need to intervene soon to prevent any unwanted effects.
- The **registrants** for the screening process need to queue up outside the screening area.

Exercise 3

- deficient- not working as well it should
- component – a part of a working whole
- invasive – going into the party / question – asking something that you don't have permission to ask about
- overlap – share some characteristics / time – the previous event goes too long and into the next one
- concurrent – simultaneous – happening at the same time
- droplet – similar to a globule but a thinner liquid
- revised – looked at again (sometimes changed as a result of being looked at again)
